

GREENLANDS[®]
Creating a Greener World since 1940

THE LEGACY

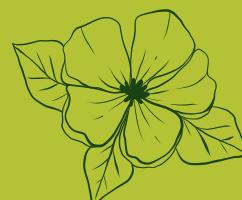

SHRI P.M. GAIWALA, THE FOUNDER, PLANTED THE SEEDS OF GREENLANDS WAY BACK IN 1940.

Holding a Masters Degree in Agriculture. He was a consultant with the government of Shillong in the late 1930s.

In the year 1940, he started his firm by the name of "Horticulture Services Centre" & used to consult factories & industries across India for all their Horticulture requirements. In those times there were very few options in the satisfaction. Green concept of Horticulture & we feel proud GREENLANDS was one of them.

In the early 1970's his son, Mr. Sanjiv Gaiwala, continued the legacy of the green business for construction companies, big mills, institutions & HNIs in & around Mumbai. He developed most of the JVPD scheme bungalows. He worked on the grassroots level & self-supervised to give the desired results. His 1" celebrity client was Shri. Amitabh Bachchan and was personally involved in beautifying his bungalow in Juhu, Mumbai.

The core value of GREENLANDS is to serve our clients well. We undertake projects on a turnkey basis and meet project schedule and budget parameters. We greet each project with enthusiasm; our success is built upon lasting client relationships. Greenlands strives to serve all area landscaping needs through dedicated, professional services and a guarantee of client satisfaction.

To cater to the growing retail demand & take gardens to space-deprived homes in urban cities, we started our retail venture in the year 2009, specializing in high-quality indoor natural plants and home gardening accessories.

MISSION

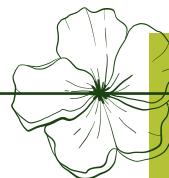

MISSION

Our mission is to create a greener world and carry on the legacy that we have created since 1940, setting trends in Landscape and Horticulture services like Design, Development and Maintenance of Gardens, Vertical Greenwalls, Farm House Development, Terrace and Podium Gardens, Green Gifting and other Garden Decor related services in PAN India.

VISION

Converting a 5000+ sq ft age-old nursery into a limited space of 150+ sq ft, one-stop shop for plants in a mall with reasonable cost is one of our biggest challenges. We aim to open 100+ green stores and create green entrepreneurs across India by appointing nature lovers as GreenLands franchisees with an easy & profitable franchisee model of a low investment-high profit mechanism.

We passionately look for all green opportunities to make a positive contribution to the global environment by bringing people close to nature.

VISION

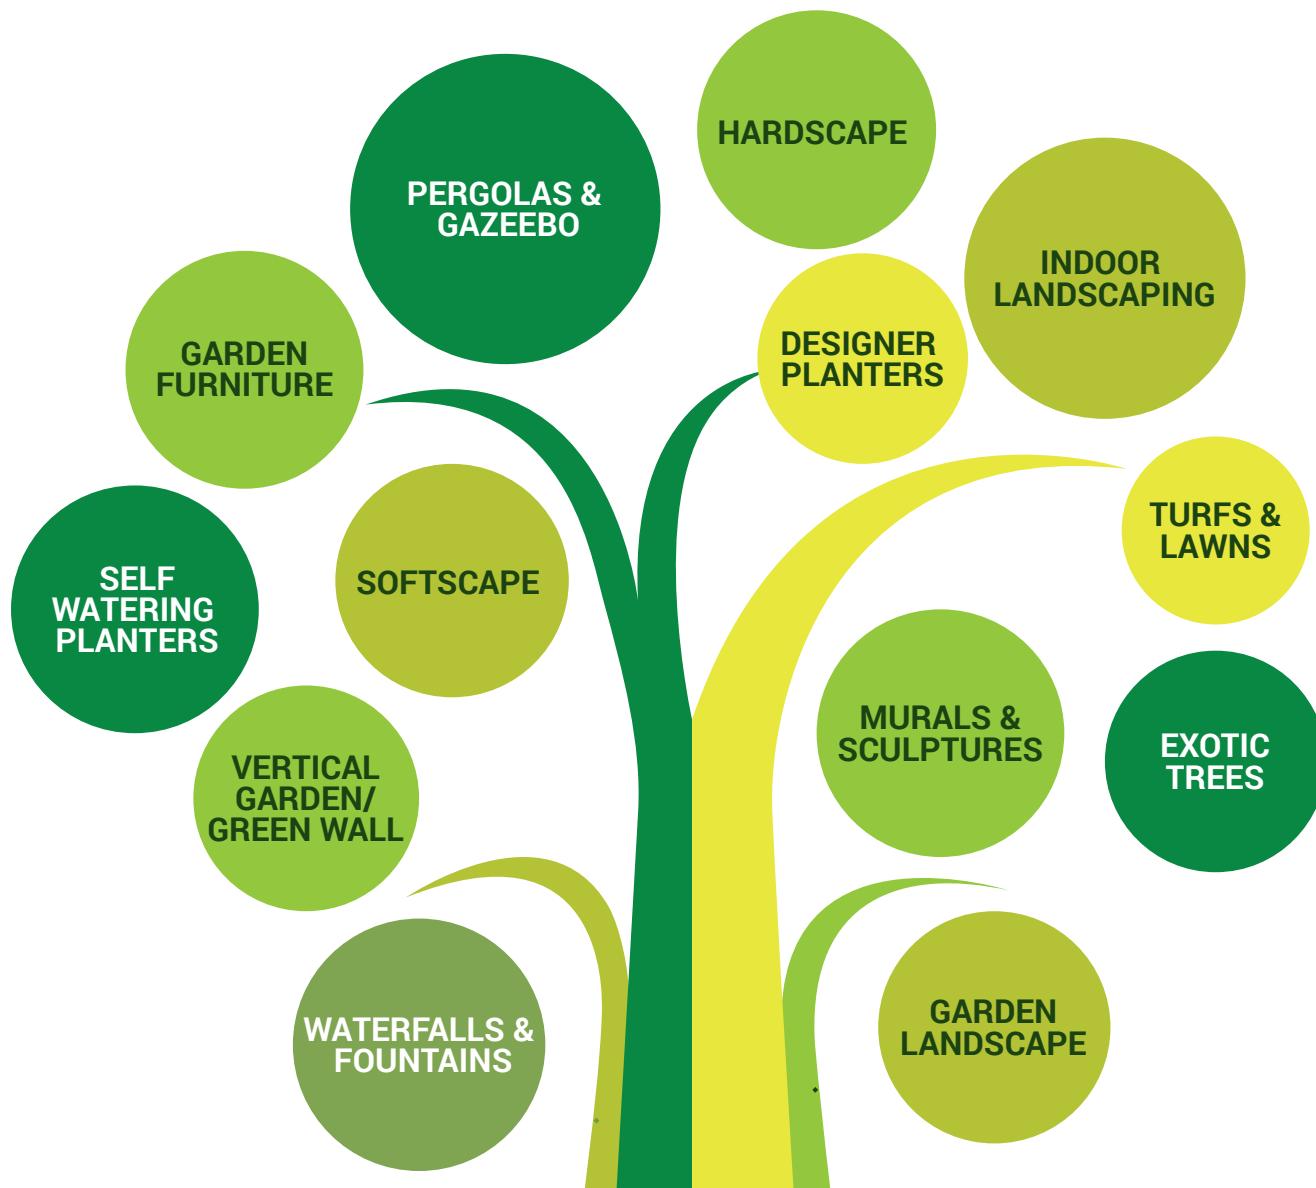

Mittesh Gaiwala

The 3rd generation in the family, an Entrepreneur and Creative Head at GreenLands. Nature has been always close to his heart as it runs in the family. From the early age of 15 years, he used to spend most of his school holidays working with a team of gardeners in nurseries and at sites practically gaining knowledge under the able guidance of his father and mentor Mr. Sanjiv Purushottamdas Gaiwala.

A graduate in Commerce and Economics, but his passion for Green always made him think out of the box. Conceded by the concrete jungles in Mumbai and the depleting natural resources, he always wanted to do something related to nature, with a dream of planting trees and putting a plant in every hand. He started the retail business.

Today with a chain of retail stores across major cities in India, a vast business network with top corporate clients of the country, and an impact on offline and online presence GreenLands has set a new trend in Green Gifting, Home Garden Décor, Landscaping and Horticulture Related Services. The happy faces of his plant-loving clients gave him the courage and confidence to raise the bar around the green retail concept in Malls and Hypermarkets.

He has won several accolades, and many magazines and print media have interviewed him for his contribution and green retail concept GreenLands has been awarded "MOST ADMIRE KIOSK" by the BEST Mall in Mumbai.

SERVICES

LANDSCAPE DESIGN

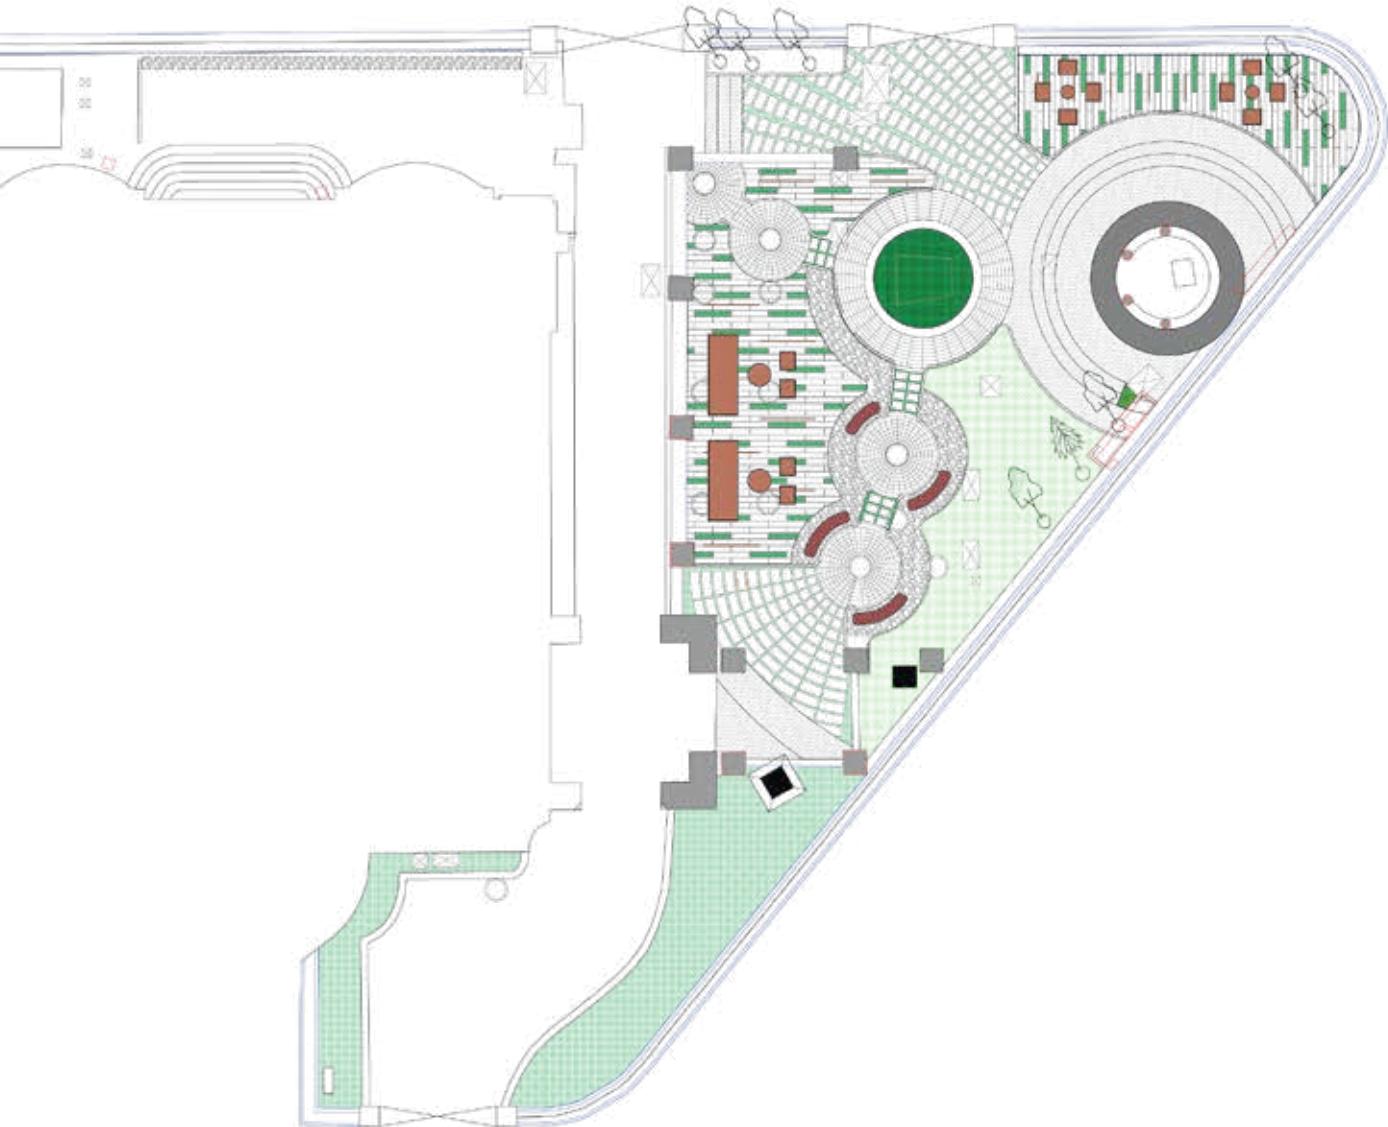

Our team of experienced designers and, draftsmen, design. A barren land into a beautiful green zone, keeping the site and taste of clients in mind.

3D DESIGN

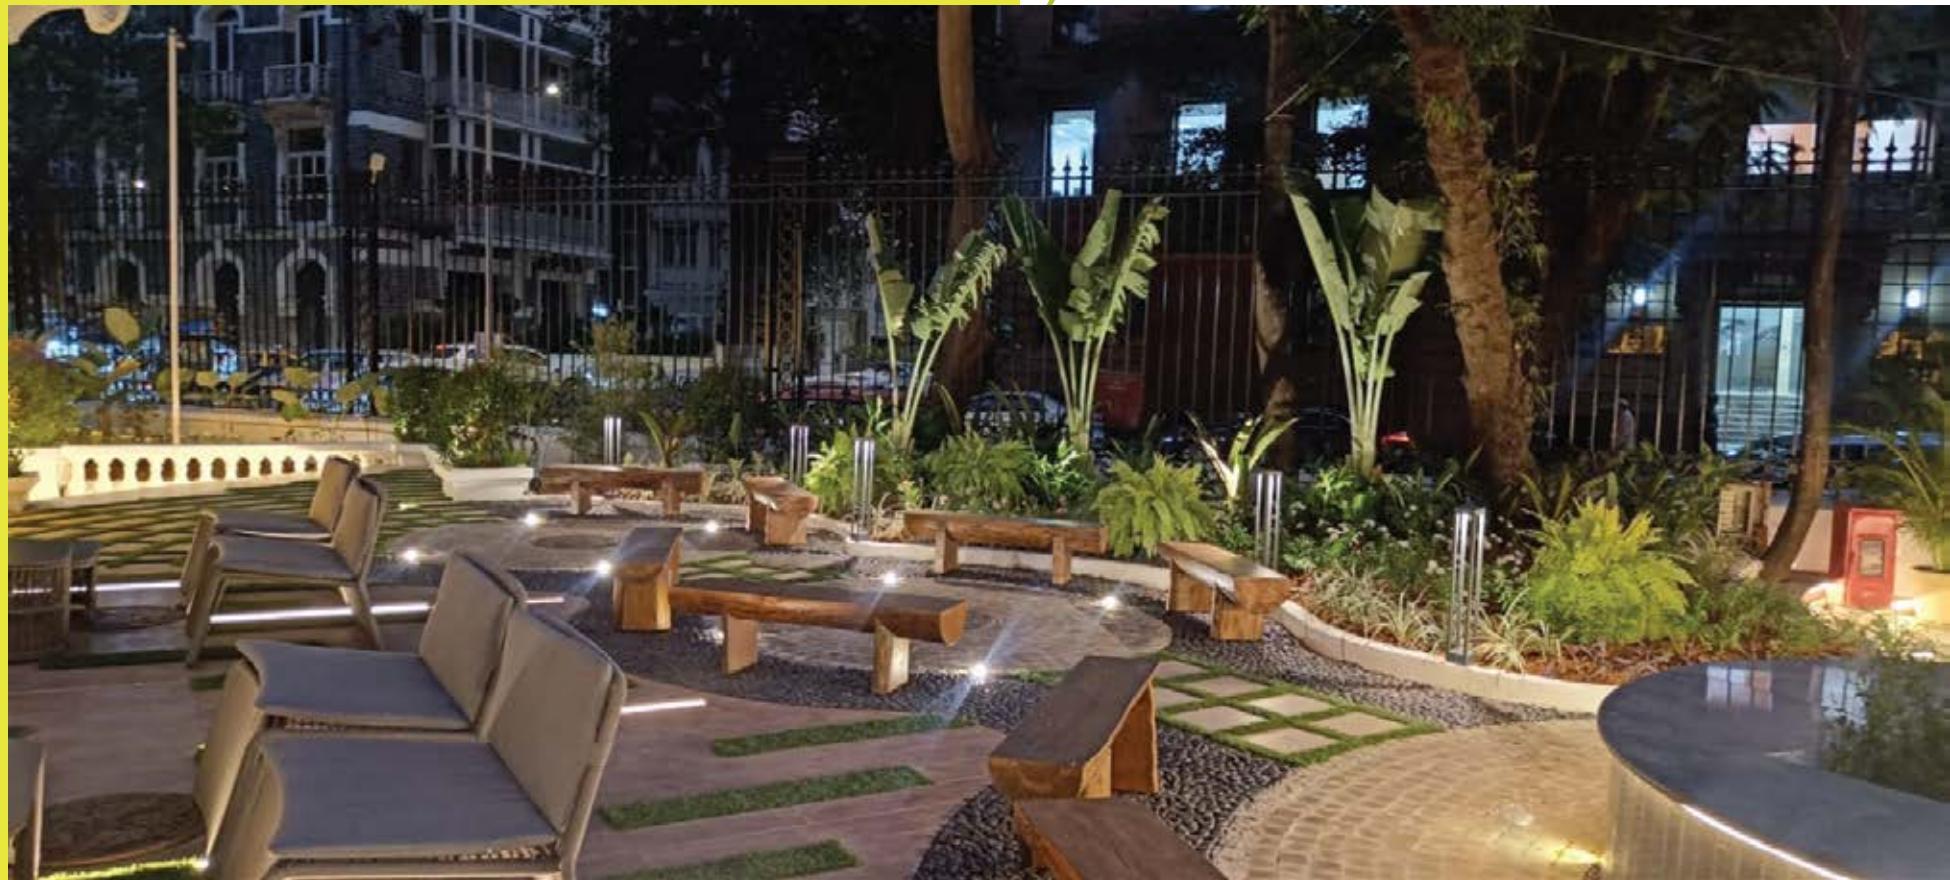

LANDSCAPE LAYOUT

LANDSCAPE DESIGN

LANDSCAPE DEVELOPMENT

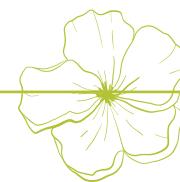

Once the design is approved, our team starts with the hardscape, fabrication lighting, water bodies, or any civil work required at the site. Softscape development is the last thing to complete the project.
